The Flood began in the 600th year of Noah's life - Genesis 7:11

The Flood came 1,656 years after creation

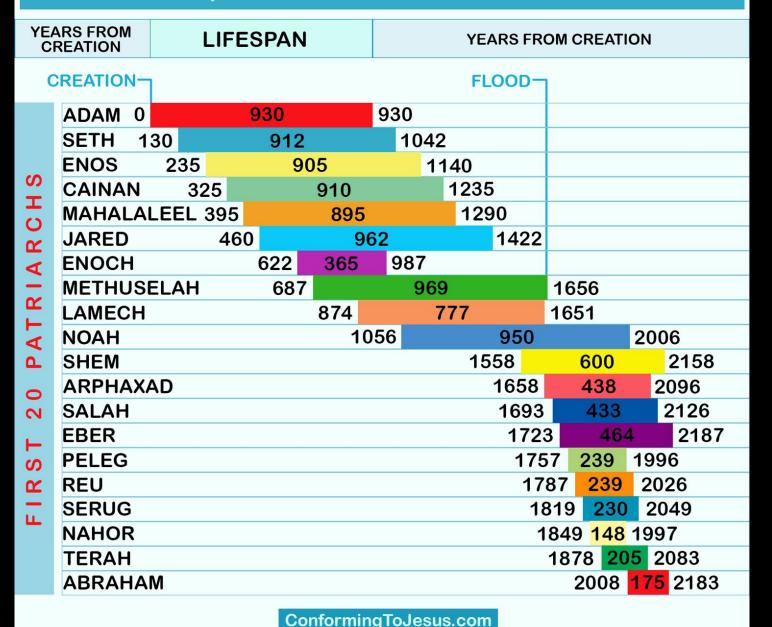

Before the Flood, when the world was much different than today, people sometimes lived almost one thousand years! But after the Flood, people's lives were much shorter. Today, few people even live to 100 years old.

The decaying effects of sin took many centuries to produce negative results in the human body.

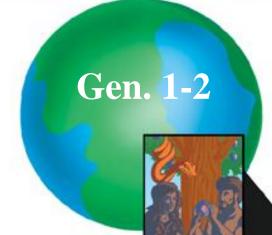

The pre-Flood climate and environmental conditions were radically different than today.
